BSI - A partner for you success online

Business Solution International (BSI) offers a unique and personalized service to establish a strong presence online and to boost your business through the internet.

Your success is our goal and our reason for being.

We are the only company in Brazil where you can find, in the same place, the three fundamental requisites for your success online.

1. Web Site

Create your online profile

We create and develop personal and professional websites. We establish your unique profile, increasing your reach and strengthening your competitive position on the internet.

- ✓ Global divulgation of your business
- ✓ Professional and attractive appearance
- ✓ Personalized content
- ✓ Compatible with your corporate identity
- ✓ Clear and easy navigation for the user

2. SEO

Search Engine Optimization

Our team uses the latest technologies and knowledge to increase the visibility of your website in organic searches, attracting more visitors and increasing the number of customers.

- ✓ Analysis of keywords for high impact
- ✓ Content adaption for high visibility
- ✓ Continued study of user behavior
- ✓ Adjustment of repetitive content to maintain visibility

3. Back Office

An extension of your office

Our BackOffice team is trained to help you generate and filter potential clients who visit your site, due to an increased visibility on the internet.

- ✓ 1st contact with clients by email and telephone
- ✓ Bilingual secretaries
- ✓ Continued client support
- ✓ Communication on behalf of your office/ company
- ✓ Collection and storage of necessary client information
- ✓ Filtration to obtain clients with high probability of closing deals

Other Services

- Sponsored Links
- Press Release
- Adaption for Social Networks
- Management of online reputation
- Link construction for PageRank

The Company

Business Solution International is a company specialized in the creation, optimization and divulgation of online company services and profiles. We also offer a BackOffice service, which makes contact with users and filters possible clients.

Our goal is to find solutions that satisfy the necessities of each of our clients and generate more positive results.
